PART 1 — MATCH FACTS

What happened?

"Raw match events, exactly as they were recorded."

Scores, shots, puckouts, turnovers and frees — the numbers you would record on a clipboard.

PART 2 — POSSESSION FACTS

What did we win/lose and where?

"Every restart, turnover and free is followed to its immediate outcome."

Each possession is tracked from its start to its immediate result — a score, a wide, or possession lost. This is the official source of truth for what we won or lost, and where.

FOUND IN THIS REPORT

- Opposition Facts
- Restart Analysis
- Turnover Analysis
- Free Kick Analysis

PART 3 — GAME ORIGIN / CHAIN ANALYSIS

What happened after those possessions began?

"Where did the possessions that eventually produced scores begin?"

A chain traces a full attack, even when it spans multiple possessions. A turnover → free won → score is one chain. This layer shows where scoring possessions began — it does not establish tactical causation. If a restart isn't logged live, the next score attributes to From General Play — origin chains only know what was captured.

Restart-origin counts every score in a possession that began with a puckout, including frees won during it. Direct restart scores attribute placed balls separately, so ledger sources sum to the final margin.
Restart Share counts every puckout in the game. Own Puckout Retention counts only our own.

Scoring Possession Origins

Kilmallock v Ballygunner

Game Origin Analysis looks at where a scoring possession began, not how the final score was recorded. A point scored from a free may also count here as a restart-origin score, if the possession it came from started at a kickout — the two figures are answering different questions, not disagreeing with each other. Use Scoring Breakdown (Part 1) for what was scored, and Game Origin Analysis (Part 3) for where the pressure that led to it began.

POSSESSION ORIGIN	KILMALLOCK	BALLYGUNNER
Restart-origin scores	3 Goals, 15 Points (24 pts)	15 Points (15 pts)
Turnover-origin scores	1 Goal, 6 Points (9 pts)	5 Points (5 pts)

Origin possessions include 8 placed frees won during kickout-origin possessions (Kilmallock 5 · Ballygunner 3) — the scoring ledger attributes those scores to placed balls.

Only restart and turnover origins are currently tracked — a score with neither origin has no row here.
